Muslins.

What is it that brings you here for Muslins? Nobody makes any money on Muslins—that's a say- Clark Eva ing, you know. It's a common saying, but it isn't true. There are two ways to make money on Mus- Durlon Henry lins. One is to sell a good many. The other is to change the names, put the prices up and sell a few.

We are willing to do the work in the plain old fashioned way and trust to making the slender profit enough by doing a great deal of work.

MOUNT EVANSTON ADDITION TO THE CITY

MOUNT EVANSTON ADDITION TO THE CITY of Kansas is said to be the lowest priced property in or about Kansas City. The addition contains about 13 acres, cornering on Twenty-third and Vine sts. The location for health and beauty is not excelled, and for convenience of access will be brought into direct communication with Union depot and all parts of the city by a branch of the new cable line. Lots in this addition to the midst of good improvements are bound to sell, and rapidly. This property is within easy walking distance of the center of the city, and in buying in this addition you get the benefit of same prices and even less than they are asking for suburban lots. We furnish a full abstract from government to plat, with certificate of title, to each purchaser. Justihink of it! \$16 per foot for good desirable city lots, within three minutes' walk of street cars and a projected line right by the door. As far as terms go, we can make any, and where others make easy terms we can make easier. There is no reason why anyone should not start the foundation for a home or speculation. For those who want a home to move into and save rent, that is, instead of paying rent, apply the payments to buying a home, we will build and sell you the property cheap.

This property is fast increasing in value and is building up with good homes, and of the many additions on the market, we can recommend this. It speaks for itself.
